Professional Experience

12/2023 – 01/2024
Ahmedabad, India

Full Stack Developer
The special character
- During my internship at The Special Character, I Collaborated with a 6-member team to develop a fully functional full-stack e-commerce website using Next.js, Tailwind CSS, and MySQL.
- Focused primarily on the frontend development, creating responsive, user-friendly interfaces for multiple pages including Home, Product Listing, Product Details, Cart, and Checkout.
- In addition, We successfully delivered the project along with a well-received presentation showcasing both technical and user experience.

Projects

06/2025

Rock Paper Scissors Game ⬈
- Built an interactive browser-based game using HTML, CSS, and JavaScript.
- Implemented game logic, UI, and animations without frameworks.
- Mobile-responsive layout with custom design and hover effects.
- Deployed live using Vercel and version-controlled with GitHub.

04/2024

Web Development ⬈
personal-portfolio
- Designed and developed a personal portfolio website to showcase skills, projects, and professional experience.
- Implemented key sections such as About Me, Skills, Projects, and a Contacat Form for user interaction.

- Built using React, CSS and Bootstap to ensure a modern, responsive, and user-friendly interface.
- Hosted the website using Vercel.

01/2024	**Brancy**
	E-Commerce Platform for Cosmetic Product Purchases

- Collaborated with a team to build Brancy, a full-stack e-commerce website, using Next.js, Tailwind CSS and MySQL.
- Contributed mainly to frontend development, implementing reusable components, dynamic routing, and responsive UI elements with Next.js and Tailwind CSS.
- Participated in regular team meetings and code reviews to maintain code quality and project progress.
- We prioritized efficient data management to create a dynamic and user-friendly platform.
