Profile

- Highly motivated and passionate web developer with a strong foundation in front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, and frameworks like React.js, along with experience in building responsive and user-friendly websites. Eager to learn and contribute to projects that enhance user experience and drive business growth.

Professional Experience

12/2023 – 01/2024 Ahmedabad, India	**Full Stack Developer** *The special character* • During my internship at The Special Character, I Collaborated with a 6-member team to develop a fully functional full-stack e-commerce website using Next.js, Tailwind CSS, and PostgreSQL • In addition, We successfully delivered the project along with a well-received presentation showcasing both technical and user experience.

Projects

04/2024	**Web Development** ⌝ *personal-portfolio* • Designed and developed a personal portfolio website to showcase skills, projects, and professional experience. • Implemented key sections such as About Me, Skills, Projects, and a Contacat Form for user interaction. • Built using React, CSS and Bootstap to ensure a modern, responsive, and user-friendly interface.
01/2024	**Brancy** *E-Commerce Platform for Cosmetic Product Purchases* • My team and I built Brancy using Next.js, Tailwind CSS, and PostgreSQL, focusing on a sleek, responsive design. • We prioritized efficient data management to create a dynamic and user-friendly platform.

Skills

frontend and backend Technologies
